Noida, Uttar Pradesh - 201309, India

OBJECTIVE

SAP BTP CAPM/SAPUI5 Developer around 4 years of experience in SAPUI5/CAPM application design and development. Expertise in SAP BTP, OData integration, Build Process Automaton(BPA), SAP Build Work Zone configuration and CAPM, with a focus on enhancing standard Fiori apps. Skilled in custom UI5 application development and performance optimization. Proven track record in Agile environments, delivering scalable solutions for global clients .

EXPERIENCE

- **IBM India Pvt Ltd** March 2026 - Present
Package Consultant- SAP BTP Noida, India
- **Uneecops Business Solutions Pvt Ltd** June 2022 - March 2026
Software Engineer Noida, India
 - Strong experience in SAP BTP, CAPM design development using various language and frameworks – SAPUI5 Freestyle, Sap Fiori, JavaScript, JSON, jQuery, AJAX, HTML, XML, CSS etc
 - Strong Experience in backend (RESTful APIs OData Services) design and development using SAP HANA database schema, tables,SAP BTP, CDS, SAP CAPM, NodeJS and XS OData Services.
 - Worked with SAP Fiori extensibility features and extended standard Fiori and custom UI5 applications using SAP Fiori/UI5, SAP Business Application Studio(BAS)

EDUCATION

- **ABES Engineering College (AKTU)** 2022
MCA -Master of Computer Application Ghaziabad, India
- **CCS University** 2020
BCA-Bachelor of computer application Meerut,India

PROJECTS

- **Vehicle Inspection: ADNOC (UAE)** January 2025 - Present
Tools: [SAP BTP, SAPUI5, CAPM, SAP HANA, GIT]
 - Developed a Vehicle Inspection System on SAP BTP using SAPUI5 and CAPM, digitizing end-to-end inspection workflows
 - Integrated the MAHA inspection system to automate vehicle test result collection and processing
 - Created intuitive SAPUI5 user interfaces, improving user experience and reducing manual intervention.
 - Developed back-end CAP services for efficient data handling, including transactional operations and master data management.
 - Implemented custom business logic in SAP CAP using event handlers such as on, before, and after to manage service behavior and data processing
 - Configured SAP Build Process Automation to orchestrate approval workflows and automated business steps triggered by inspection completion, reducing manual follow-ups and improving process efficiency
 - Integrated the application with SAP Build Work Zone, exposing the inspection app as a centralized launchpad tile, enabling secure role-based access and seamless navigation for business users
- **Change Request Form (CRF): Stonemen Pvt Ltd** Sep-2023 to Dec-2024
Tools: [SAP BTP, SAPUI5, BAS, GIT,HANA]
 - Designed and developed an end-to-end SAP BTP solution for Stonemen Pvt. Ltd., a manufacturer and exporter of handcrafted homeware products
 - Managed all change request transactions, improving process efficiency and ensuring seamless system scalability
 - Implemented stage- and role-based user access control, ensuring secure and streamlined business operations.
- **Connectrix: DPL festive Ltd (Kenya)** July 2022 - Sep 2023
Tools: [SAP BTP, SAPUI5, CAPM, SAP HANA, GIT]
 - Developed a SAPUI5 freestyle based application integrated with Connectrix to manage master data and key business processes like Sales, Inventory
 - Implemented real-time data synchronization between Fiori apps and Connectrix services to keep business data accurate and updated across all modules.
 - Designed user-friendly SAPUI5 interfaces that improved user experience and reduced manual work in processes like order handling and financial reconciliation

SKILLS

- **Frontend:** SAPUI5, UI5 Controls, JavaScript, HTML5, XML
- **Backend:** Node.js, SAP CAP (Cloud Application Programming Model), OData (V2/V4), CDS (Core Data Services), Event Handlers (on, before, after), Custom Business Logic Implementation
- **Database Systems:** SAP HANA Cloud, HDI Container, SQL Scripting, Data Modeling, Entity Relationships
- **Tools and platforms:** SAP Business Technology Platform (BTP), SAP Business Application Studio (BAS), Postman, Git (Version Control), VS Code, SAP CLI
- **BTP Services:** Destination Service, Credential Service, XSUAA, SAP Build Work Zone, SAP HANA Cloud, CI/CD Pipeline
- **Deployment:** Cloud Foundry, SAP Build Work Zone (Launchpad), MTA Deployment

HONORS AND AWARDS

- **Growth Champions**

Unecops

- Honored with the RR Award for Best Performance in successfully delivering the Stonemen CRF project ahead of schedule, ensuring quality outcomes and business impact
- Recognized for strong team collaboration and client appreciation, contributing to high-quality outcomes

- **Buddy Star**

Unecops

- Recognized for developing and implementing a Vehicle Inspection System on SAP BTP using SAPUI5 and CAPM, integrating the MAHA system for automated vehicle test processing.

CERTIFICATIONS

- **Getting Started with SAP Cloud Application Programming Model by credly**
- **Getting Started with SAPUI5 Web Development by credly**
